Office of Legislative Counsel

Monday - 8 February 1960

1. Mr. Jay Scurwine, Senate Internal Security Subcommittee, telephoned to inquire when the transcript of the Kazzachyev hearing would be ready, mentioning a possible Sunday release date. I indicated it was being worked on and we would try to have it back to him by Monday or Tuesday of next week.

STATOTHR
Scurwine asked about a [redacted] presently in the U.S. who was a former chief of the [redacted]. Apparently he traveled to Communist China in 1957 and has put out a pamphlet about Communist China for circulation in the U.S. We indicated we would check and let him know.

2. Ben Mandel of the Internal Security Subcommittee Staff called and asked if we would give him summary reports on the following three anti-communist meetings which are scheduled between now and summer: (a) in Lahore, Pakistan 9-23 February, (b) Taipei sometime in May, (c) Paris sometime in May also. This request will be passed on to FE Division. Mr. Mandel also noted that Rabbi Lebowitz was planning a conference on Latin America soon. This is being discussed with WH.

3. Mr. Carden, in the office of Congressman Edgar W. Hiestand (R., Calif.), called to say that the Congressman was planning to introduce a resolution in the House stating the fraudulent nature of the Soviet claims in satellite and missile progress. He planned to cite the articles by Evans in the National Review and Lloyd Mallon on the BIG RED LIE in supporting this position. Mr. Carden was desirous of any information we might provide on this subject. His attention and that of the Congressman was called to the House Science and Astronautics hearings on the BIG RED LIE. Congressman Hiestand seemed most appreciative of this information.
